

adhesive lubricant for sensitive areas

Top-Lub Fluid is a special adhesive lubricant and has an NSF registration for the foodstuffs sector, meaning that it can be used in the foods and beverages industry and in the pharmaceuticals and cosmetics industries.

Top-Lub Fluid is particularly adherent and pressure-resistant, with excellent penetration properties, and is also noisedamping and water-repellent. The spray prevents elongation, friction and wear.

Due to its special formula and the resulting NSF registration, WEICON Top-Lub Fluid can contribute towards the improvement of workplace safety and health protection.

The spray can be used on toothed wheels and worm gears, on joints and couplings, on rollers and bearings, on chains and wire cables or on spring assemblies as well as in numerous industrial fields.

Technical data

Colour	leicht gelblich
Odour	neutral
Temperature resistance	-20 °C bis +250 °C
Shelf life (minimum)	24 months
Special features	synthetisch, transparent

Storage

Pressurized container: protect from sunlight and do not expose to temperatures exceeding +50 °C.

Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation.

We do guarantee the continuously high quality of our products. However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended. A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.

Health and Safety

When using WEICON products, the physical, safety technical, toxicological and ecological data and regulations in our EC safety data sheets (www.weicon.com) must be observed.
